

Get Pronouns Right - Pronoun Badges

You can't always assume what someone's gender identity and pronouns are.

Getting pronouns right is a basic way to respect a person's gender identity. Shrewsbury Colleges Group is a place of inclusivity and we want to make trans and non-binary students feel comfortable.

We are now offering free pronoun badges from Student Services at each campus. This follows feedback from students that they think people in College should have the option of pronoun badges, to either wear to self-identify or to support other students.

We hope members of our College community find these useful.
